New Integrated Cook Systems for 2009

No single material is best for all backcountry cooking – that's why the MSR brand has integrated different items that best suit the job at hand and created a series of compact, nesting sets geared for specific activities. The systems are engineered with smart features like strainer lids, insulated stainless steel cups, modular pot handles, collapsible utensils and safe, non-leeching plastics. The components that make up a system are also sold individually and in smaller sets.

Fast & Light[®] Series

Ultralight and ultra-practical, for those who demand the best in lightweight durability.

Quick 2 System

A cook system that stands as the go-to solution for the widest range of uses and meals. The Quick 2 System includes large Hard-Anodized Aluminum Pot for boiling plus a smaller DuraLite DX™ Nonstick pot for sauces, DeepDish™ plates that function as a plate or a bowl, durable stainless steel Insulated Mugs that are easy to handle with hot contents, a pot lid with a built in strainer for cooking ease and a modular Talon™ Pot Handle that works on both pots, also securing the lid over the contents to make one space-reducing compact system for packing. Insulated Mugs and DeepDish Plates in system are different colors for multiple users to keep track of their own (updated photo coming soon).

Quick 2 System: (1) 1.5L DuraLite DX™ Nonstick Pot
(1) 2.5L Hard-Anodized Aluminum Pot w/ Strainer Lid
(1) Talon™ Pot Handle
(2) DeepDish™ Plates
(2) 12.5 fl. oz. Insulated Mugs with lid

Quick 2 Pot Set: (1) 1.5L DuraLite DX™ Nonstick Pot
(1) 2.5L Hard-Anodized Aluminum Pot w/ Strainer Lid
(1) Talon™ Pot Handle

New Shelters for 2009

Fast & Light® Series

Maximum space, minimum weight. MSR® Fast & Light shelters take livability to the extreme, proving that ultralight does not require compromise. They are also durable enough for late-summer cloudbursts, March winds, and the unexpected early-summer snowfall.

Carbon Reflex 1™

The lightest double wall tent available from the MSR brand, achieved by carbon fiber poles and an efficient pole design. Comparable to the best-selling Hubba™ tent in volume but more than half a pound lighter, this non-freestanding solo tent offers maximum interior space, with a roomy front vestibule and zippered access to a rear vestibule. Quick and easy to set up, with the ability to pitch with just the fly and footprint for a compact, fly-weight shelter at just 1 lb. 9 oz.

| | |
|-------------------------|------------------------------------|
| Carbon Reflex 1 | 1 person, 1 door |
| Minimum Weight: | 1.02 kg / 2 lbs. 4 oz. |
| Floor + Vestibule Area: | 1.6 + 0.9 sq. m / 17 + 9.5 sq. ft. |
| Interior Peak Height: | 94 cm / 37 in. |
| Livable Volume: | 595 + 240 L / 21 + 8.5 cu. ft. |

Carbon Reflex 2™

Providing full-featured room for two at the weight of many one-person tents, this is the lightest two-person double wall tent available from the MSR brand, thanks to carbon fiber poles and an efficient pole design. Comparable to the best-selling Hubba Hubba™ tent in volume, but almost one pound lighter, the unique pole configuration provides maximum interior space, a roomy front vestibule and zippered access to a rear vestibule. This sub-3-pound non-freestanding tent is quick and easy to set up, and can be pitched with just fly and footprint for a compact, fly-weight shelter at just 2 lbs.

| | |
|-------------------------|-----------------------------------|
| Carbon Reflex 2 | 2 person, 1 door |
| Minimum Weight: | 1.27 kg / 2 lbs. 13 oz. |
| Floor + Vestibule Area: | 2.7 + 1.3 sq. m / 29 + 14 sq. ft. |
| Interior Peak Height: | 100 cm / 40 in. |
| Livable Volume: | 1217 + 382 L / 43 + 13.5 cu. ft. |

Mutha Hubba HP™

The lightest 3-person backpacking tent ever available from the MSR brand, this streamlined HP conversion of the popular Mutha Hubba provides added protection with even less weight. New technical fabric provides protection from snow, sand and wind, while a unique pole configuration provides maximum interior space, 2 Stay-Dry™ entrances and two large vestibules for gear storage. The versatile shelter can be used as a double-wall tent for full protection or in 2 freestanding tarp-shelter modes for the ultimate in weight savings.

| | |
|-------------------------|-----------------------------------|
| Mutha Hubba HP | 3 person, 2 door |
| Minimum Weight: | 2.85 kg / 6 lbs. 4 oz. |
| Floor + Vestibule Area: | 3.7 + 1.3 sq. m / 40 + 14 sq. ft. |
| Interior Peak Height: | 117 cm / 46 in. |
| Livable Volume: | 2945 + 623 L / 104 + 22 cu. ft. |

Skinny One™

Ultralight and ultra-roomy, this single-wall tent offers super-efficient weatherproof protection at an impressively affordable price. Featuring copious amounts of space for one, a front vestibule for gear and superior flow-through ventilation thanks to an end-to-end overhead mesh vent and mesh window at the foot of the tent. Hooped ends with Fast Clips make setup quick and easy. Perfect for extended solo trips.

| | |
|-------------------------|-----------------------------------|
| Skinny One | 1 person, 1 door |
| Minimum Weight: | 1.33 kg / 2 lbs. 15 oz. |
| Floor + Vestibule Area: | 1.4 + 0.46 sq. m / 15 + 5 sq. ft. |
| Interior Peak Height: | 76 cm / 30 in. |
| Livable Volume: | 1033 + 198 L / 36.5 + 7 cu. ft. |

Skinny Too™

Ultralight and ultra-roomy, this single wall tent for two offers super-efficient weatherproof protection at an impressively affordable price. Featuring copious amounts of space, a front vestibule for gear and superior flow-through ventilation thanks to an end-to-end overhead mesh vent and mesh window at the foot of the tent. Hooped ends with Fast Clips makes set up quick and easy.

| | |
|-------------------------|------------------------------------|
| Skinny Too | 2 person, 1 door |
| Minimum Weight: | 1.6 kg / 3 lbs. 9 oz. |
| Floor + Vestibule Area: | 2.3 + 0.7 sq. m / 25 + 8.5 sq. ft. |
| Interior Peak Height: | 96 cm / 38 in. |
| Livable Volume: | 1925 + 368 L / 38 + 13 cu. ft. |
