Segment 11: Steinberg am Rofan - Alpbach

This segment provides a memorable trail riding experience beside the swift-flowing Steinberger Ache and Brandenberger Ache Rivers. The uphill sections of this segment gradually climb on broad trails and gain a moderate 650 meters in elevation. The 1,300 meter descent is a whole lot of fun and a truly enjoyable experience, especially for its million dollar views. Riding across the village of Brixlegg, a climb takes you to Reith in Alpbachtal Valley and to the base of Reitherkogelbahn Gondola. Having enjoyed even more million dollar views from its top, a final descent takes you down to Alpbach, the destination end of this ride.

Tourdescription

From Steinberg am Rofan the route follows the forest road alongside Hinterberg to Pinegg, from where a short downhill section brings you to the first ascent, winding up to Aschau. From there, the road meanders down to the village of Kramsach. In the village, cross the Inn River towards Brixlegg and continue

riding on a trail that cuts up the hillside to Reith in hairpins. Ride the Reitherkogelbahn Gondola to 1,200 meters with your bike. From the top terminal, a short climb is followed by a long downhill ride into Alpbachtal Valley. After some 400 meters of vertical drop, the route climbs above the valley with an elevation gain of 200 meters and continues with another descent towards Alpbach. The trail passes beneath Wiedersbergerhornbahn Gondola, which you will ride on the start of the next segment.
